Surgical CRA meeting

November 7th 430pm

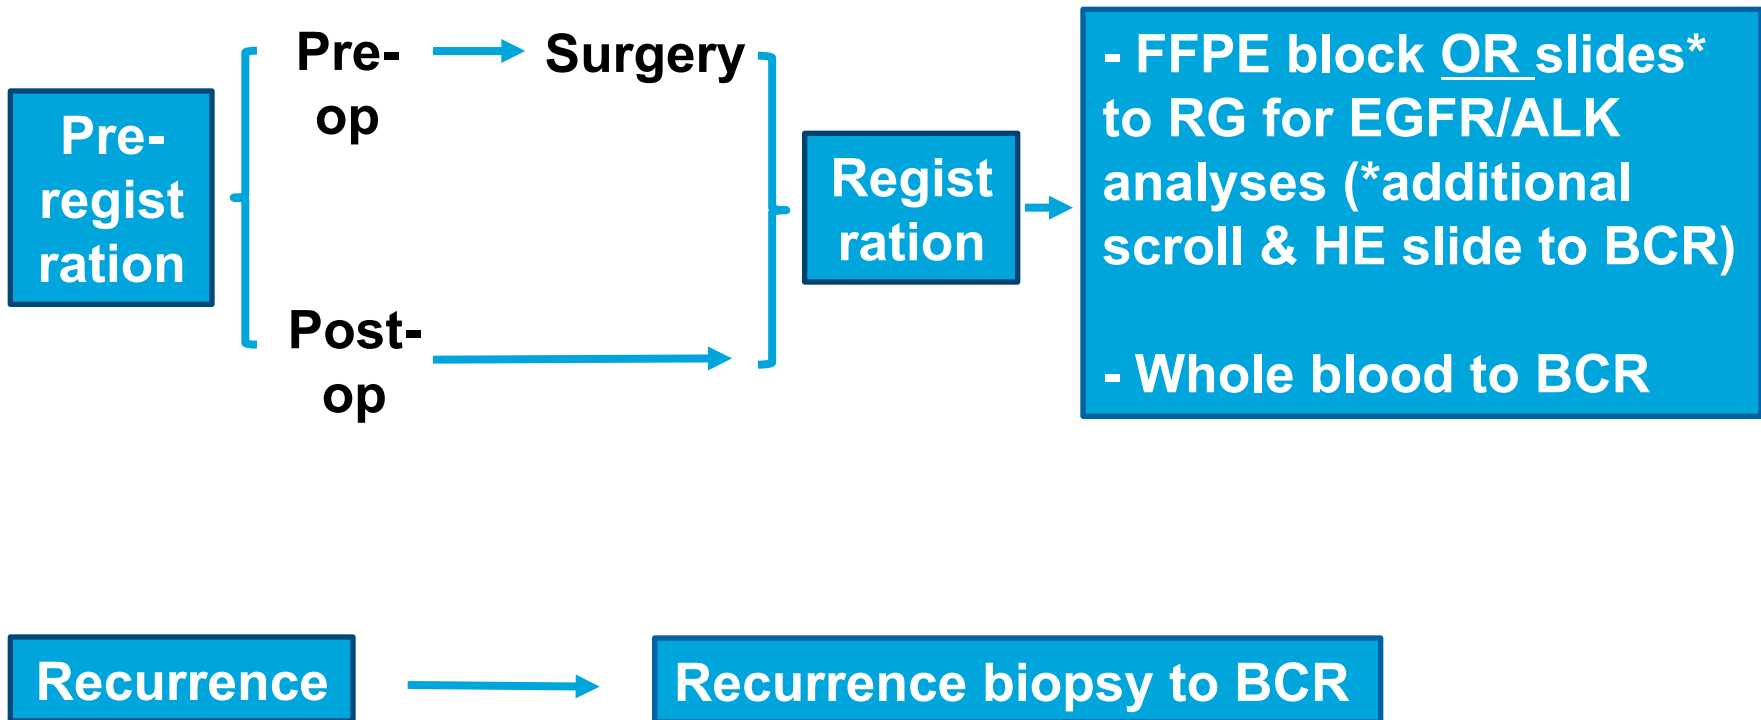

ALCHEMIST is an integrated research effort with 3 component trials:

Screening Trial -A151216: Eligible patients will have their tumor tissue tested for genetic changes in ALK or EGFR. If tissue testing is positive, they will be referred to one of the treatment trials. If negative, they will be followed for 5 years. All patients contribute information to the national public resource for research.

Erlotinib Treatment Trial -A081105

Crizotinib Treatment Trial -E4512

Specimen Submission

Shipping Logistics

- No study kits
- Block submission: Tissue blocks are sent to RG, blood is sent to BCR within 30 days of registration
- Slide submission: Slides are sent to RG, scrolls and blood are sent to BCR within 30 days of registration.
- RG will send all samples to the BCR, regardless of EGFR/ALK status

Q & A

- Any study specific sample collection kit? **No.** Cost of supply and shipping/handling come from the per case payment
- What if a patient needs the tissue block back for medical reason? *"Note that if the block is required by the site at some future date for clinical patient management, the block will be returned to the site within upon a written request, if physically possible, but this cannot be guaranteed."*
- Will the site get tissue back if patient is EGFR- and ALK-? **No,** tissues from patients enrolled in the screening trial (A151216) will be stored at BCR for future study.
